Core Skills

- End-to-End Feature Ownership, User Journey Mapping, Requirement Analysis, UX Audits, Competitive Analysis
- Interaction Design, Wireframing, High-Fidelity Prototyping, Design Systems, Responsive Design, Accessibility
- User Research, Behavioral Analysis, GA4 Analytics, Usability Evaluation, Data-Informed Design

Education

- FPT Arena Multimedia (FPT) — 2021
- Comprehensive User Interface Design Course (Mirr Design) — 2023
- UX Foundation Course (Telos Academy) — 2022
- HCMC University of Technology and Education(HCMUTE) — 2016

AI-Assisted Product Development

- AI-assisted Research & UX Analysis
- Rapid Prototyping with AI Coding Tools
- UX flows → functional prototypes
- AI-assisted Iteration & UX/UI Quality Assurance

Highlight

Recognized as "Top Performing Designer 2022" at LIVEN Technology

UX/UI Designer

thegioididong.com(MWG) - TGDĐ, Điện Máy Xanh, TopZone — 2026 – Now

- Own end-to-end UX/UI design for e-commerce journeys across desktop and mobile web, from user research and requirement analysis to prototyping, validation and launch.
- Collaborate with Product Owners, Business Analysts and front-end engineers to translate business requirements into user flows, interface layouts and design solutions.
- Analyze GA4 data, on-site behavior and customer journeys to identify usability issues and prioritize improvements to website features.
- Built and maintained scalable Design Systems using Storybook and AI-powered tools for TGDĐ & ĐMX, standardizing components, design tokens, and reusable patterns across products.
- Conducted behavioral analysis and UX optimization, contributing to **+15%** engagement and **-10%** bounce rate.
- Directly test and evaluate the usability of projects
- Applied AI-first workflows using ChatGPT, Claude and Codex reducing stakeholder review preparation **from 3 days to 1 day**.
- Performed UI review / design QA after development, working with engineers to identify implementation gaps and ensure consistency with approved designs and guidelines.

UI/UX Designer

Softworld VietNam Ltd — 2025 - 2026

- Analyzed user persona to identify behavior patterns & improve experience flows.
- Conducted user behavior research and analyzed customer journeys to identify pain points & improvement opportunities.
- Created scalable design systems for multiple product lines, supporting consistency and reuse.
- Optimized UI flows for loyalty programs, booking flows to enhance user engagement and retention.
- Designed touchscreen HMI (Human-Machine Interface), Kiosk for interactive service robots used in banking and restaurant environments.
- Participated in client meetings to discuss and align on design solutions.
- Delivered projects both as a solo designer (end-to-end ownership) and as a team member within cross-functional project teams.
- Collaborated with the Marketing team to create creative, impactful content for social media, landing pages, and event campaigns.

UI/UX Designer

LIVEN Technology (VDES, Yourweddingplanner, Unlock, Marry) — 2023 - 2025

- Designed web dashboards to support consistent UI development across apps.
- Collaborated with the Marketing team to create creative, impactful content for social media, landing pages, & event campaigns.
- Delivered branding assets including internal banners, logo systems for brand chains, and executive name cards.
- Designed CRM interfaces to optimize internal operations and improve workflow efficiency for businesses.
- Participated in product development by designing UI/UX for web and mobile apps, especially in tech-related platforms.
- Applied responsive design techniques and accessibility best practices to create inclusive user experiences.

Visual Designer

LIVEN Technology (VDES, Yourweddingplanner, Unlock, Marry) — 2021 - 2025

- Created promotional banners with layout and color schemes tailored to campaign messages
- Delivered clean and consistent with brand identity visuals for multiple industries including F&B, Fashion, Wellness, Healthcare, Hospitality & Resort...
